

Blockchain in the Digital Economy

26 октября

08:30 - 09:00

Registration

09:00 - 10:00

Business briefing. Operation manual: blockchain on a turnkey basis

Session for those who do not understand whether blockchain is useful for their business

Focus of discussion

- How to understand if blockchain is right for implementing specific business processes?
- How to select a platform?
- How to measure economic effects?
- Where to start implementation?
- Major mistakes of companies when adopting blockchain.
- How to avoid unconscious investments that may not pay off?
- When to expect economic benefits from implementation?
- How to choose between public and private blockchain?
