

Linking Tourism & Conservation

Differences to manage protected areas in Russia
versus in Europe ?

Sochi, October, 19, 2018

Peter Prokosch

**Our common Global Goals – the SDGs
- the “bible” for all countries the world**

The Global Goals and focus of LT&C

SUSTAINABLE DEVELOPMENT GOALS

14 LIFE BELOW WATER

15 LIFE ON LAND

How to tackle these Challenges ?

Only **4% marine protected areas** reached, far away from 2020 target of **10%**

Many existing national parks are just **“paper parks”**

30\$ billion/a for managing effectively a global network of national parks (**0.4%** of the World's Tourism turnover!)

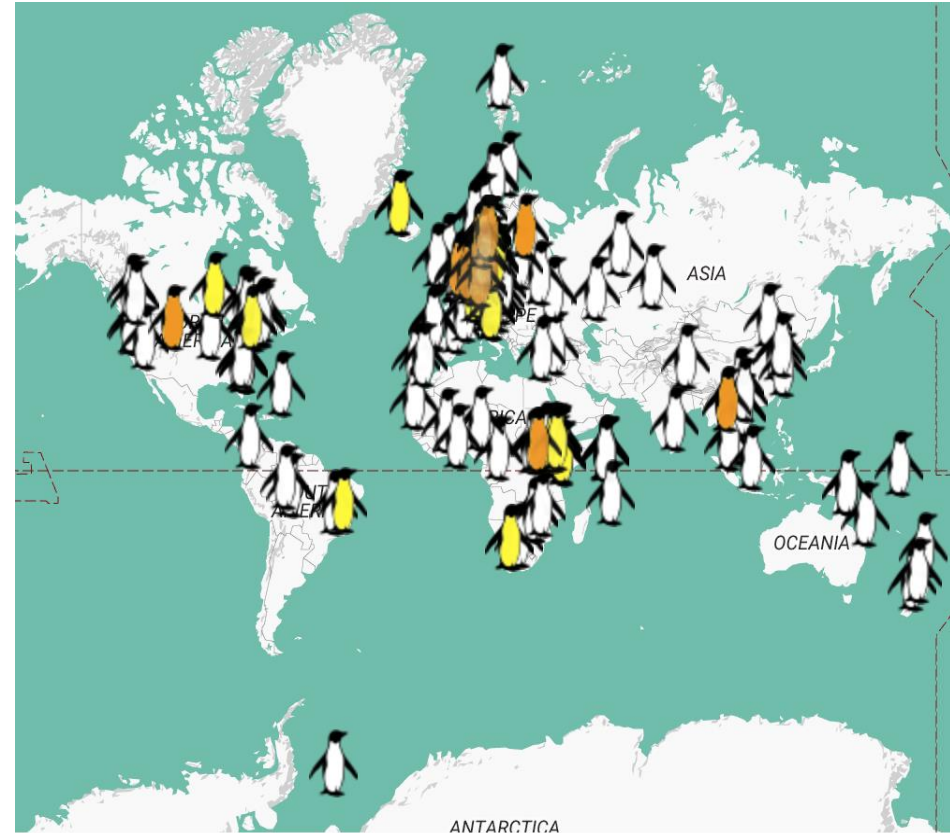

Global protected areas generate over **US\$600 billion** each year while **only 2%** of this figure is **reinvested** in the safeguarding of their future

Linking Tourism & Conservation is

- *Profiling best examples of tourism supporting protected areas (LT&C-Examples)*
- *Developing incentives that these LT&C-Examples are getting learned from and replicated*
- *Promoting and educating best praxis*
- *Promoting synergy and cooperation*
